DETAILED ACTION

Claim Objections

Claim 5 is objected to because of the following informalities: on line 10, a parentheses --)-- should be inserted after the letter "d". Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 and 4-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Fry (U.S. Patent No. 3,984,040) or Himebaugh (U.S. Patent No. 5,169,048).

With respect to Claims 1-2 and 5-6, Fry or Himebaugh, teach a machine for installing rolled shingle roofing material on a roof deck comprising: a wheeled frame; a holder for the rolled roofing material from which roofing material can be unroll, the holder being mounted on the frame; a guide roller connected to the frame; means for fastening the roof deck surface; wherein the means for fastening the roof material to the roof deck comprises a pneumatic nailing gun and a pneumatic cylinder.

Allowable Subject Matter

Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
